PRIMARY EXAMINER

The Request For Continued Examination and Information Disclosure Statement filed 16 August 2004 have been entered. The non-initialed documents on the IDS have been reviewed but not cited or considered because the information is not prior art.

1. The following is an examiner's statement of reasons for allowance: Applicant shows a distinct film coated tablet formulation comprised of oxcarbazepine. Tablet forms of oxcarbazepine are known. Bourquin US 5,472,714, considered the closest prior art of record, shows oxcarbazepine tablets prepared by granulation of the active ingredient and excipients. The prior art does not show nor fairly suggest applicant's finite granular oxcarbazepine formulation having the distinct median particle sizes and maximum residue limitations as set forth in claims 16-20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 16-20 are allowed.

Claims 1-15 have been canceled.
